Mr. & Mrs. Mapelli,

I don't know if you noticed this article in the Tribune this last week or not but this fossil was unearthed here on your ranch at Briggsdale.

Mr. Carpenter drove in one day and asked if he could hunt for fossils. I gave him permission and before it was all over he had found this fossil.

He came back one day and told Don he wasn't mentioning names or places so the area wouldn't be disturbed.

Hope you are all doing fine.

Jeanette Magnuson
